Dindigul, Tamil Nadu | +91 70923 89886 | thangamanikumaravel005@gmail.com

SUMMARY

I’m a curious and forward-thinking person who enjoys solving problems and thinking analytically. I’m always looking to learn something new and turn challenges into meaningful opportunities. I adapt quickly, communicate clearly, and work well with others. I’m excited to contribute fresh ideas and grow in a fast-paced, innovation-focused environment.

EDUCATION

Bachelor of Engineering – ECE (Electronics & Communication Engineering)	2022-Present
Vivekanandha College of Technology for Women (VCTW)	CGPA:7.9
Senior Secondary (Class XII)	2020-2021
Mahesh Karthik Matric Higher Secondary School, Palani	Percentage:71%
Secondary School (Class X)	2018-2019
Mahesh Karthik Matric Higher Secondary School, Palani	Percentage:84.4%

SKILLS

Languages: Python, C, C#.

Interface: HTML, CSS.

Database: SQL

Office Suites: MS Excel, MS PowerPoint, MS Word.

Tools: VS Code, MySQL, Figma.

PROJECTS

SMART WATER CONSERVATION SYSTEM

Technology used: IoT, Mobile & web application development, Microcontroller.

- The Smart Water Conservation System uses IoT, sensors, and automation to monitor and optimize water usage efficiently. It detects leaks, manages irrigation, and ensures minimal wastage through real-time control and data analysis. This eco-friendly system supports sustainable water management in homes, agriculture, and industries.

THEFT ALERT NOTIFICATION SYSTEM

Technology used: IoT, Cloud Computing, Sensors.

- The Theft Alert Notification System detects unauthorized movement or tampering using sensors and immediately sends alerts via SMS or IoT platforms. It helps prevent theft through real-time monitoring, alarms, and mobile notifications.

CERTIFICATES

- Completed Certification in C Programming, gaining foundational skills in procedural programming, data types, loops, and functions.
- Successfully completed Scilab Training, focusing on numerical computation, signal processing, and scientific programming.

ACHIEVEMENT

- Achieved First Place in a paper presentation on “Nanotechnology in Cancer Treatment”, demonstrating strong research, presentation, and technical communication skills.
- Led and coordinated multiple technical events in college by managing participants, streamlining communication, and ensuring smooth execution.
